2. 【Research Plan】

*Describe your research plan in concrete and clear terms. Diagrams and figures may be included. This section should be no longer than two pages. Please adhere to the format and do not add to it. Please use Times New Roman, 9-pt.

(1) Significance of the Research

Describe the significance of your research, including the research background such as current status and challenges in the relevant field and how you came up with this research concept.

(2) Research Objectives and Content

- ① Describe the objectives, methods, and content of the research in the research to be conducted.
- ② Specify your plan and describe what will be achieved and to what extent at the end of your research.
- ③ Describe features and originality of your research as well as a comparison with previous research, the expected impact of your research when it is accomplished, and its future prospects.
- ④ Describe your exact tasks if you play a part in your laboratory's research activities.
- ⑤ If you plan to engage in research at a different research institution from your host institution (including research institutions in foreign countries) during the period of your research, please describe what activities are to be conducted with the institution you mentioned.

(1) Significance of the Research**(2) Research Objectives and Content****Important Notes on Required Documents****Formatting Requirements**

- Japanese: MS Gothic, 10 pt
- English: Times New Roman, 9 pt
- No changes to the format, font size, or line spacing.

【Research Plan】

Describe your proposed research, including its background, using figures where appropriate, in a way that can be understood by researchers outside your field. (Max. 2 pages)

3. Protection of Human Rights and Compliance with Laws and Regulations

※Descriptions should be no longer than half a page. Please adhere to the format and do not add to it. Please use Times New Roman, 9-pt.

In the process of implementing the research plan described in [2. Research Plan], if the research activities require consent and/or collaboration of a third party, careful attention dealing with personal information, or appropriate actions to comply with bioethical and/or security measures, the kind of measures taken under the laws and guidelines must be described in concrete terms. For example, this applies to investigations, research, and experiments which need to obtain the approval from the Information Committee or the Ethics Committee inside and outside the research institution. And therefore, this applies to questionnaires/interviews including personal information, cultural assets inside and outside the country, usage of provided samples, invasive research, human genome, genetic modification, or animal experiments. If your research is related with the matters mentioned above, describe the procedures' circumstances. If none of the above applies to your research, please clearly indicate that this section is not applicable.

4. 【Self-Assessment of your Ability to Accomplish the Research】 ※Each section has no word limit but descriptions should be no longer than half a page. Please adhere to the format and do not add to it. Please use Times New Roman, 9-pt.

Including the research plan indicated in this application, describe (1) "your strengths in research" in the relevant field and (2) "necessary qualities for your further growth as a doctoral human resource in the future," in concrete terms based on your experience in the research activities you have been involved in.

() Delete all the instructions written in italics including this sentence when you fill out this application form.*

• Describe (1) and (2) in concrete terms, for example, in terms of proactive attitude, skill in generating new ideas, problem-solving skills, breadth/depth of knowledge, expertise, communication skills, presentation skills and others in the research work. You can describe the above skills separately point-by-point.

(1) Your strengths in research

()Delete all the instructions written in italics including this sentence when you fill out this application form.*

• Describe your strengths, indicating your past research accomplishments (e.g., papers, in the "List of Research Accomplishments") as evidence.

(2) Necessary qualities for your further growth as a doctoral human resource in the future

Important Notes on Required Documents

【Protection of Human Rights and Compliance with Laws and Regulations】

- Describe any research, surveys, or experiments that require approval by an ethics committee, information committee, or similar body. Explain the approval status and how compliance will be ensured.
- If not applicable, simply write "N/A."

【Self-Assessment of your Ability to Accomplish the Research】

- Briefly describe your strengths as a researcher, based on your experience to date. Also explain the skills or abilities you would like to further develop in the future.
- Limit: 0.5 page.

5. 【Your Career Vision】 ※Each section has no word limit but descriptions should be no longer than one page. Please adhere to the format and do not add to it. Please use Times New Roman, 9-pt.

This project aims to foster doctorate holders who will be active in diverse career paths and contribute to Japan's science, technology, and innovation. In light of this purpose, describe (1) "How you will contribute to Japan's science, technology, and innovation", and (2) "Preferred sector and country to work in".

(1) How you will contribute to Japan's science, technology, and innovation

(Note) Delete all the instructions written in italics including this sentence when you fill out this application form.

- *How do you plan to contribute to Japan's science, technology, and innovation in your current research and in your career after completing the program?*

Explain when, where, what, and how. Note that this is about contributions to "Japan's" science, technology, and innovation.

(2) Preferred sector and country to work in

Which sector would you like to work in after completing the program? Please select one and check the box.

- ☐ I would like to work in academia or a public research institution.
- ☐ I would rather work in academia or a public research institution.
- ☐ I would work in either academia or a public research institution or the private sector.
- ☐ I would rather work in the private sector.
- ☐ I would like to work in the private sector.

- ☐ I would rather work in Japan (including Japanese companies outside of Japan).
- ☐ I would work either in Japan or outside of Japan.
- ☐ I would rather work outside of Japan. (country:)
- ☐ I would like to work outside of Japan. (country:)

Important Notes on Required Documents

【Your Career Vision】

- Describe how you plan to contribute to Japan's science, technology, and innovation during your doctoral studies and after completing the program.
- For international students: Please focus on contributions to Japan, not your home country.

6. [List of Research Accomplishments] ※Descriptions should be no longer than two pages if possible. Please use Times New Roman, 9-pt.

- ① List your research accomplishments over the past three years up to the submission deadline, and number them consecutively according to the examples below.
- ② When describing your research accomplishments (papers, etc.), provide sufficient information to identify them.
 - (1) Presentations at academic conferences, etc. <List separately by category for domestic academic conferences, international academic conferences, symposiums, lectures, etc.>
 Clarify whether they are oral or poster, and whether they are peer-reviewed or not. List the authors (all authors in the order in which they appear in the program), title, conference name, number of the paper, location, month and year of presentation. (Exclude papers to be presented. However, if the presentation application has been accepted, it may be listed here.) In addition, please provide the URL of a web page where your research accomplishments are listed. If multiple pages are publicly available, please provide the main page. If no webpages listing your research accomplishments are available, please attach a PDF document that verifies the presentation.
 - (2) Academic Papers, etc. <List separately by category for academic papers, review articles/overview articles, and other>
 Clarify whether they are peer-reviewed or not. If peer-reviewed, the paper must have been accepted for publication. List the authors (all authors in the order in which they appear in the academic papers), title, journal name, volume number, first page number - last page number, publication year, and DOI. In addition, please provide the URL of a web page where your research accomplishments are listed. If multiple pages are publicly available, please provide the main page. If you have academic papers, please attach PDF files of the papers.
 - (3) Academic Awards, etc.
 List the name of the awardee, the content (title) of the award, the name of the awarding society, and the award year. Also list any honors or distinctions, if any. Please be sure to attach evidence for each award or honor.

(*) Delete all the instructions written in italics including this sentence when you fill out this application form.

- Domestic conferences: Conferences held in the home country, mainly for researchers in the home country. The official language is the home language.
- International conferences: Conferences held basically for researchers from around the world, including those held in one's own country. Official language is English, etc.
- Proceedings and abstracts will NOT be evaluated in this selection.
- Poster presentations that include a brief oral presentation should be listed and scored as poster presentations.
- Peer-reviewed university bulletins should be included under «Academic Papers», while non-peer-reviewed university bulletins should be included under «Other».
- Patents obtained or pending should be listed in (2) «Other» of Academic Papers, etc.
- Academic awards: Only awards received from third-party organizations, excluding your university, are eligible.
